June 1 marks the beginning of the 2016 Hurricane Season for New Jersey and surrounding states.

The New Jersey Department of Health has put together some public awareness materials for you to share with your community.

As in the past, we offer our widget that you can put on your website to connect to our Hurricane Preparedness page. This link is: <http://www.nj.gov/health/widgets/share.shtml>

This year, we created a short video featuring Assistant Commissioner Christopher Rinn that is now on our Public Health TV website that gives general preparedness tips for Hurricane Season. Here is the link to video: <https://www.youtube.com/watch?v=b7L-Z2upcM8>.

And as always, you can follow us on Twitter: [twitter.com/NJDeptofHealth](https://twitter.com/NJDeptofHealth) and like us on Facebook: [facebook.com/NJDeptofHealth](https://facebook.com/NJDeptofHealth).
